

GET WINTER READY: BOSS SNOWPLOW LAUNCHES NEW SOLUTIONS FOR BETTER SNOW REMOVAL *Introducing the FORGE® 2.0 Long Bed, D-Force for DXT Plows and SK-R 6 Compact Vehicle Plow*

Iron Mountain, Mich. (May 15, 2019) — [BOSS Snowplow](#) expands its snow and ice removal product offerings to help professionals prepare for the upcoming winter storm season. The newest members of the BOSS family are the [FORGE® 2.0 Long Bed](#) spreader and the [SK-R 6](#) compact vehicle plow, both extensions of popular BOSS collections. Additionally, the popular [D-Force®](#) accessory is now available for DXT Plows.

“At BOSS, we’re focused on every aspect of the contractor’s business — roads, driveways, sidewalks and parking lots — and the solutions they need to work quicker, more efficiently and with more profitability,” said Mark Klossner, marketing vice president for BOSS Snowplow. “We take great pride in listening to our customers and offering the products and accessories they need to operate successful businesses.”

FORGE® 2.0 Long Bed

FORGE® stainless steel spreaders have become a strong performer in BOSS’ growing line of ice control solutions, and a new design makes the FORGE® a quality solution for long bed trucks. The FORGE® 2.0 Long Bed features a longer hopper design to optimize its fit on long bed trucks and make filling the spreader easier and quicker with a loader bucket.

SK-R 6

The SK-R 6 joins the SK-R 8 and SK-R 10 to expand BOSS’ line of box plows for tractors, skid steers and other compact vehicle equipment. The new SK-R 6 features a reversible 1 ½-inch rubber cutting edge designed for quieter plowing operation and protection to sensitive surfaces. SK Box Plows from BOSS are designed to put the full force and maneuverability of compact vehicle equipment into getting the pavement back to black.

D-Force® for DXT

BOSS continues to expand products offering D-Force®, an accessory that improves scraping when backdragging by maintaining a consistent hydraulic down force powered by a hydraulic accumulator, leaving cleaner pavement in less time than conventional plows. D-Force® will now be available on new [BOSS DXT 8'2" and 9'2" snowplows](#), adding even more power to the already fully featured DXT lineup.

For more information on the new 2019 product features and the quality, durability and warranty of the BOSS brand, [find your local dealer](#) or visit www.bosspow.com.
