BOSS Pro-Lid

Features & Benefits:

- Pro-Lid is a hard polyethylene cover for all new and existing VBX Hopper Spreaders. (Excludes the VBX3000.)
- Allows the operator to open the BOSS Pro-Lid while remaining on the ground with most vehicles.
- Wear resistant Delrin® bushings glide along the laser cut guides for a low friction easy open/ close function.
- Includes handle extensions to accommodate varying truck bed heights and locks the cover in place when in transit.
- Unique, multi-position key and slot design allows the handle to lock in open and closed positions.
- Designed to deflect material from falling in the bed of the truck when the Pro-Lid is in the open position.
- Features a seal between the doors to reduce the intrusion of moisture.
